AutoBox Boxer

KOLBUS AutoBox
The future of boxmaking

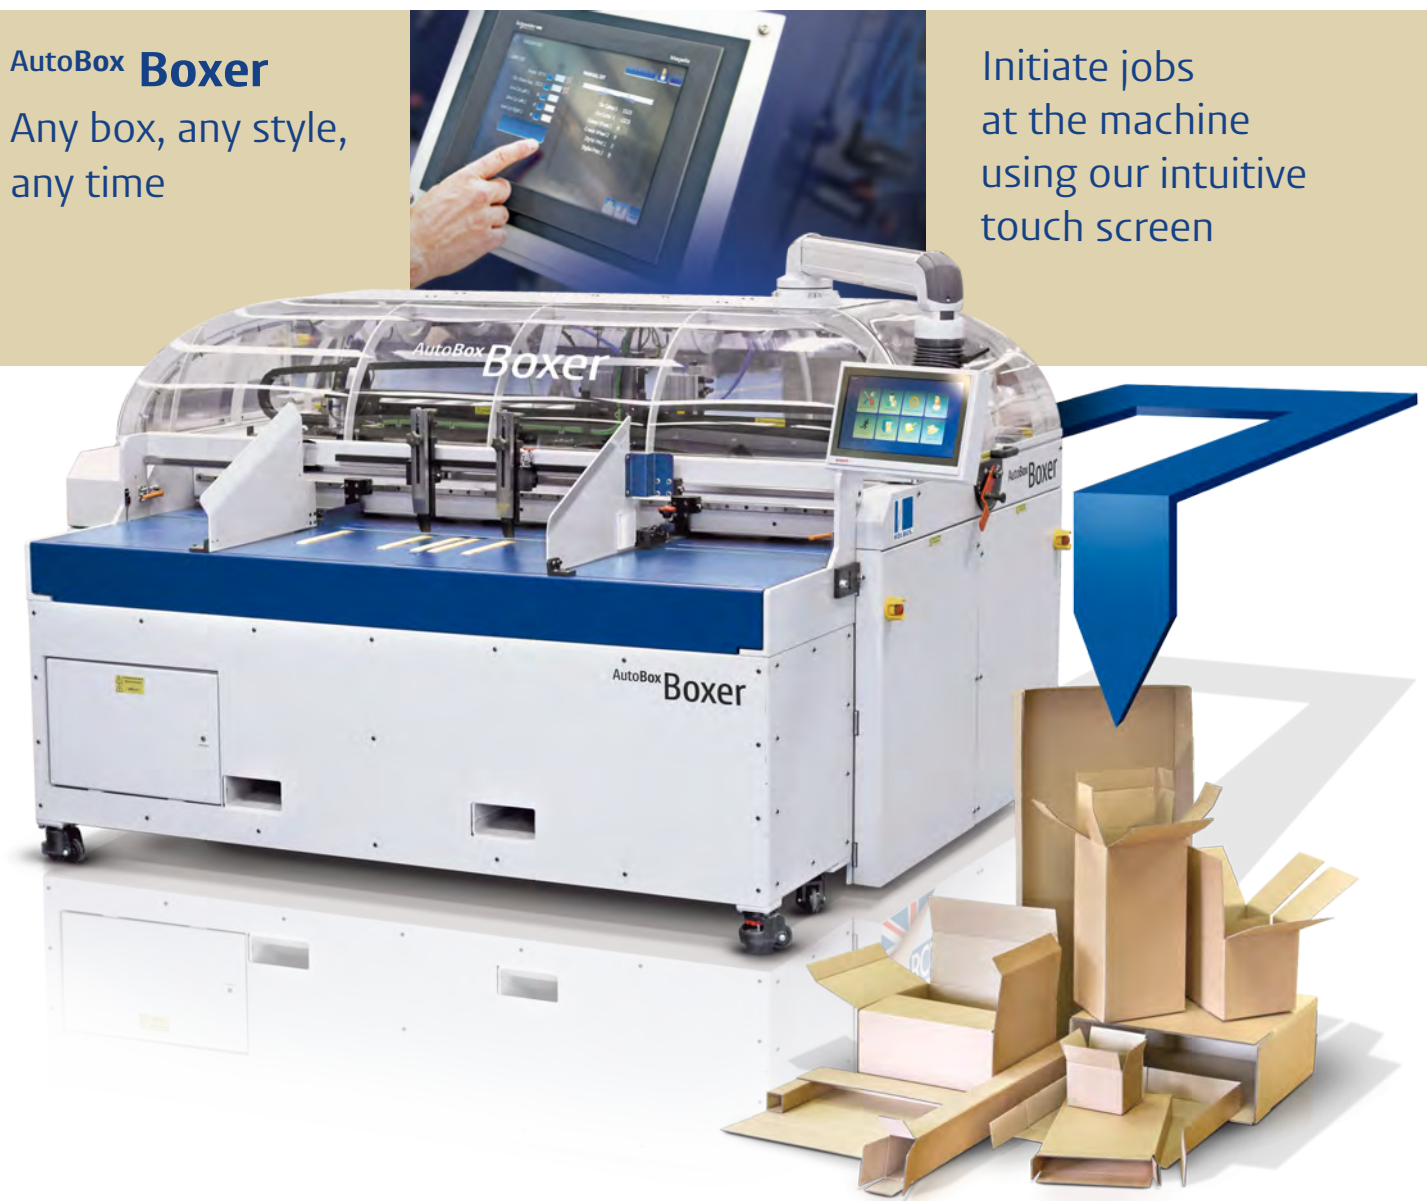

The **AutoBox Boxer** always talks your language...

- Uses sheet corrugated board
- Produce boxes on demand, with no need for prior box making experience
- Single wall through to heavy duty double wall
- Makes rugged 'industry standard' boxes
- Produces 100 box styles from wraps to pallet boxes in almost any size
- Frees up valuable space by reducing the amount of stock boxes you need to hold
- Only need to stock a handful of basic sizes and grades of corrugated sheet
- **Manual input** via touch screen
- **Remote input** – Connect and control via the office PC or your mobile devices
- **Scan-2-Box™** – Integrated scanning system and box sizing software
- Ultra compact state-of-the-art technology
- Reliable and easy to use

So simple, so versatile.
Box making has never been so easy

Boost the capabilities of your **AutoBox Boxer** with extra modules and ancillary products

DIGITA PRINT

- One or two print heads, high resolution 180 dpi
- Print in several positions both along and across box
- Simple graphic interface, no print plates required

Take your specialist box making capabilities to a whole new level with colour ink jet print module

AutoBox PG

Speed up production with our simple to use, fast set-up, high output, semi-automatic box gluer

- Runs at variable speeds up to 30 metres per minute
- Standard cold PVA adhesive in easy-clean reservoir
- Programmable batch counter with alarm

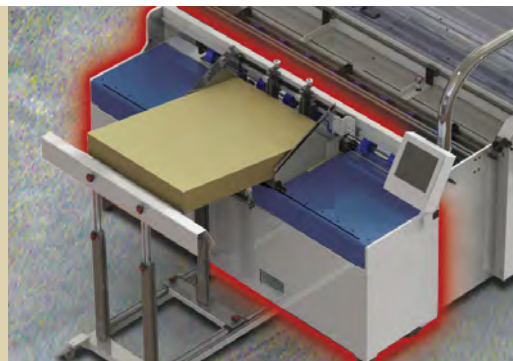

Table Feed: a high grip friction feeder across width of machine allows for auto-feeding of all sizes of stock board

AutoBox PM

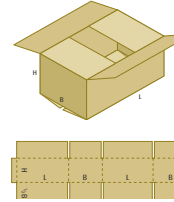

Apply a measured amount of hot-melt adhesive across the whole length of the glue flap to provide optimum contact surface with excellent adhesion, every time.

- Easier and up to 50% cheaper than a hot glue gun
- 3 ltr heated tank ensures a constant supply of glue

KOLBUS GmbH & Co. KG headquartered in Rahden, Westphalia, in northern Germany, is proud of a long tradition of engineering excellence. Founded in 1775, **KOLBUS** has been supplying paper processing machinery since 1900. The company built a world reputation for its highly automated bindery machines. Today, the Kolbus Special Machinery business unit engineers machinery and systems for the production of book cases and packaging made from paper and cardboard, and corrugated board.

KOLBUS AutoBox in Houghton Regis, Unites Kingdom have been at the forefront of the corrugated conversion market. The ongoing commitment to design innovation and superb customer support across all continents has been the mainstay of our success and has now been recognised with the Queen's Award for International Trade.

KOLBUS Service set a very high priority on direct all-round service and support to ensure that everything goes smoothly with your system – from installation to commissioning and throughout your production operations. **KOLBUS** delivers this high-calibre support – worldwide, online and on-site – through a network of experienced service technicians and your contact partners in our subsidiaries and sales agencies.
